

### Water Cycle

(6 is the phase that creates clouds.)

\*3, 4, and 6 are the different phases

Label:

- 1) \_\_\_\_\_
- 2) \_\_\_\_\_
- 3) \_\_\_\_\_
- 4) \_\_\_\_\_
- 5) \_\_\_\_\_
- 6) \_\_\_\_\_

Phase	What is it?	What makes water go through this phase?	Why is it important?	What state of matter? Example: liquid to a gas	Sketch a picture has to do with the phase.
Evaporation					
Condensation					
Transpiration					
Precipitation
